

NURSE PRACTITIONERS

NPs are the providers of choice for millions of Americans. NPs evaluate patients, diagnose, write prescriptions and bring a comprehensive perspective to health care.

NP: Your Partner In Health

With a track record of **quality** health care delivery for nearly half a century ...

and a growing need for **health care providers**, especially in primary care ...

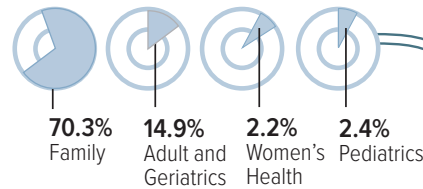

NPs are a clear solution for patient-centered, accessible health care.

PRIMARY CARE FOCUS

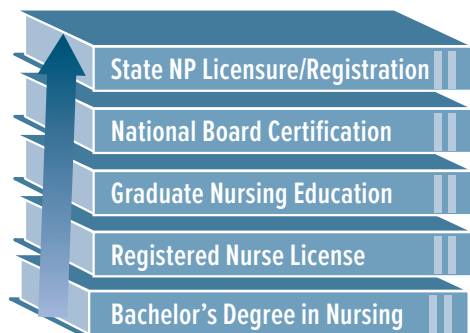

In 2022, approximately 88% of NPs were prepared in primary care.

APPROXIMATELY **88%** PREPARED IN PRIMARY CARE

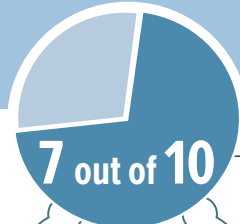

AREA OF PRIMARY CARE PREPARATION

REQUIREMENTS FOR PRACTICE

6+ YEARS OF ACADEMIC AND CLINICAL PREPARATION

NPs AT A GLANCE

More than **5 decades** of improving patient access and quality care

Estimated annual patient visits exceed **1 billion**

Prescribe medications in all **50 states** and D.C.

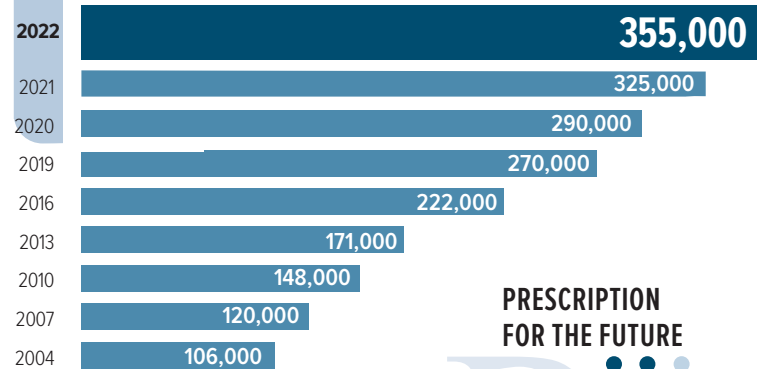

56.9% OF NPs SEE 3 OR MORE PATIENTS PER HOUR

An increase in the overall population, aging baby boomers and number of individuals living with chronic disease will drive the need for robust primary care access.

INCREASING IN NUMBER

The number of NPs continues to grow rapidly.

NPs BY THE NUMBERS

83.2% see Medicare patients.
81.9% see Medicaid patients.
83.3% see privately insured patients.
54.4% see uninsured patients.

PRESCRIPTION FOR THE FUTURE

2 out of 3 patients support legislation for greater access to NP services

November 2022
